## Organisational Structure

## **VISION**

*To act as the nurturing ground for young professionals who seek to make their mark and to create a talent pool for various industries so that there may be synergistic growth for both.*

## **MISSION**

*To achieve professional competence and academic excellence in Computer Applications by continuously improving academic processes and research activities with industry interactions.*

**Nature and extent of involvement of faculty and students in academic affairs / improvement.**

The department has initiated a strategic approach to the overall development of its students through E-DISHA, a fully functional student's forum, wherein the students take part in various activities under the guidance of faculty members. The major activities of E-DISHA include conducting of seminars and aiding students to develop their soft-skills and conducting guest lectures from experts. Most of the events and activities taken up by E-DISHA are presided over by relevant experts. The feedback from these industry experts has enabled the E-DISHA to improve its activities.

**Mechanism /Norms & Procedure for democratic/good governance.**

Every one of Acharya Institutions have a common vision and Quality Policy, but work on their mission statements and a set of objectives. Each department on its own has similar Mission Statements and objectives.

The vision and mission are pursued to accomplish the set of objectives. The various levels of Governance starting with the Executive Council of the Group institutes till the lowest levels are participating in administration. Students as users find representation in Governance organs like the Hostel Committee, Library Committee etc.

Representation of Faculty and students as well as manning of various positions in the Acharya Institutions are defined through the performance and achievement and not by mere representation through election.

Qualities of leadership, motivation, transparency of the operations, decentralization and delegation of powers, participation of faculty is built into the policy framework of the Acharya Institutes.

**Student Feedback on Institutional Governance/faculty performance:**

Appraisal of Faculty:

Faculty have to do a self-appraisal process and they will also be appraised by students, HODs, Peer Teams, Principal and Management during the Academic Year, which includes:

- Teaching abilities and knowledge gain during period of appraisal
- Discipline
- Initiatives taken
- Consistency of Performance
- Ability to work under pressure
- Attitude to work
- R&D work carried out
- Consultancy activated and completed
- Networking with industries etc.

On a 1 to 10 scale, the criteria for assessment by different assessment groups would accordingly vary.

System of awards and accountability is proposed to be instituted based on the Appraisal systems. While for Selection, Promotions and Appointments, the Appraisal scores of previous three years will be taken into account.

Similarly, Non-Teaching staff Appraisal is also being taken up with a different system. Appraisal by the Laboratory/Section in-charge, the HoD, the Principal and students is proposed. Clear guidelines are being incorporated for non-achievement of targeted performance. Systems of Awards and Accountability need to be also incorporated for the Non Teaching staff.

Students and alumni too provide an annual feedback on the Teaching Learning Processes as well as on the overall institutional performance.
