MASTERS IN PHYSIOTHERAPY (M.P.T) - MUSCULO-SKELETAL SCIENCES

About

Master of Physiotherapy (MPT) in Musculoskeletal Sciences is an advanced degree program designed to equip physiotherapists with specialized knowledge and clinical skills to treat musculoskeletal disorders. This program is ideal for those who wish to deepen their expertise in managing conditions related to bones, joints, muscles, and soft tissues.

Career Scope

With the rise in musculoskeletal disorders linked to sedentary lifestyles, aging populations, and sports participation, there is a growing need for skilled physiotherapists who specialize in musculoskeletal care. This makes the MPT in Musculoskeletal Physiotherapy a valuable qualification with strong career prospects. Graduates can work in

- Clinical Practice
- Consultancy Roles
- Leadership and Academia

Eligibility

Passed BSc (PT) or BPT degree with at least 50% marks from a recognized university. Those who have completed BPT through bridge course, later entry after a diploma in Physiotherapy or completed a 6-month compulsory rotating internship from a recognized university can also apply.

Duration
2 years

COURSE CONTENT

- PAPER 1: Fundamentals in Physiotherapy Practice, Pedagogy and Research
- PAPER 2: Fundamental Principles of Musculoskeletal Physiotherapy
- PAPER 3: Physical And Functional Diagnosis in Musculoskeletal Disorders
- PAPER 4: Physiotherapy Interventions in Musculoskeletal Disorders
