- Community outreach programs offering impactful, real-world physiotherapy practice.
- Practical training that integrates theory with hands-on applications beyond the classroom.
- Cutting-edge labs and a digital library for comprehensive learning resources.
- Holistic development with clubs, extracurriculars, and a focus on soft skills.

MASTERS IN PHYSIOTHERAPY (M.P.T) - PEDIATRICS

About

Acharya's NR Institute of Physiotherapy offers a Master's in Paediatric Physiotherapy designed to equip you with advanced clinical skills, theoretical knowledge, and hands-on experience to excel in this impactful field. The program features exclusive collaborations with top paediatric centres and special education schools, offering real-world exposure to a range of conditions such as cerebral palsy, developmental delays, muscular dystrophy, Down's syndrome, and autism spectrum disorders. You'll gain comprehensive training in treating motor delays, musculoskeletal abnormalities, and postural imbalances while developing a multidisciplinary approach to care.

Career Scope

Graduating with a Master's in Paediatric Physiotherapy opens up numerous career opportunities in a variety of settings. You can work in paediatric hospitals, special education schools, rehabilitation centres, or private clinics specializing in paediatric care.

Research, Academia, and Policy Development: This program also prepares you for careers in academic research, teaching, or policy development related to paediatric health. You can contribute to the development of new therapeutic techniques or even pursue a Ph.D. in Paediatric Physiotherapy.

Global Demand for Skilled Paediatric Physiotherapists: As the global demand for paediatric healthcare professionals continues to rise, your qualification will be highly regarded both in India and abroad. You will be well-positioned to pursue career opportunities in international healthcare systems, where skilled paediatric physiotherapists are in high demand.

Eligibility

Passed BSc (PT) or BPT degree with at least 50% marks from a recognized university. Those who have completed BPT through bridge course, later entry after a diploma in Physiotherapy or completed a 6-month compulsory rotating internship from a recognized university can also apply.

Duration
2 years

COURSE CONTENT

- PAPER 1 : Fundamentals in Physiotherapy Practice, Pedagogy and Research
- PAPER 2: Applied Anatomy, Physiology and Biomechanics In Paediatrics
- PAPER 3: Physical and Functional Diagnosis in Pediatrics
- PAPER 4: Paediatric Physiotherapy / Physiotherapeutics in Paediatrics
