  92% overall placements | 100% D.Pharm

M PHARM
PHARMACEUTICS

About

M. Pharm in Pharmaceutics is a two-year program focused on research and coursework relating to the development, production and characterization of dosage forms. The program also focuses on the disposition and action of drugs in the body.

Career Scope

Graduates in pharmaceutical sciences can find employment opportunities in both the government and private sectors, taking on a variety of roles. They may work as Analytical Chemists, where they analyze substances to ensure product quality and safety, or as Business Development Executives, focusing on strategic growth within pharmaceutical companies. Additionally, positions such as Drug Inspector and Pharmacist allow graduates to play critical roles in regulating and dispensing medications.

Eligibility

Pass in B.Pharm degree from any university recognised as equivalent by PCI and AICTE with the minimum of 55% aggregate.
