About

The program is designed to accommodate students who have already completed a bachelor's degree in a field other than pharmacy. It provides a pathway for career changers or those who decide to pursue pharmacy later in their academic journey.

- **Comprehensive clinical pharmacy curriculum** blending pharmaceutical sciences with patient-centered care, drug therapy management and clinical practice.
- **Extensive experiential & clinical training** integrated at foundational and advanced levels to prepare students for real-world healthcare settings.
- **Global internship opportunities** that foster collaboration with leading universities and healthcare systems worldwide.
- **Specialized modules in pharmacovigilance and drug safety**, enhancing competencies in medication monitoring and therapeutic outcomes.
- **A 6-year professional course structure** (5 years of study + 1 year internship/residency) leading to the Doctor of Pharmacy degree.

Career Scope

- **Clinical and hospital pharmacy roles —** Graduates are qualified for roles like **Clinical Pharmacist, Hospital Pharmacist, Director of Pharmacy** where they manage medication therapy and patient care.
- **Specialist pharmaceutical positions —** Opportunities include **Pharmacist in Charge, Nuclear Pharmacist** and leadership roles within healthcare teams.
- **Healthcare research and regulatory careers —** Scope in **clinical trials, drug safety, regulatory affairs**, and advisory roles collaborating with physicians and other care providers.
