

ACHARYA INSTITUTE OF ALLIED HEALTH SCIENCES

Eye Screening Camp for International Students

About the Program

- This program aims to identify and correct potential refractive errors or ocular health issues early, ensuring uncorrected vision does not hinder the international students' academic or personal well-being.
- Equips optometry students with hands-on clinical experience in assessing a diverse, global patient population.
- Educates the international student community about the importance of routine eye care, early detection of vision issues, and the resources available to them for ongoing ocular health.

13th October 2026

09:00 AM to 04:00 PM

Venue: Acharya's N.R. Eye Clinic, Acharya Campus
