

ACHARYA INSTITUTE OF TECHNOLOGY

Department of Chemistry

Build Smart! Protect Smart! IPR Awareness Program for 1st Year Engineering Students

About the Program

- This program introduces 1st year engineering students to the fundamentals of Intellectual Property Rights (IPR).
- Creates awareness about the importance of protecting innovations, creative ideas, and technological developments.
- Provides basic knowledge of patents, copyrights, trademarks, and industrial designs through expert talks and discussions.
- Highlights the significance of IPR in engineering, research, innovation, and entrepreneurship.
- Encourages students to think and develop original ideas, and understand the legal protection available for their innovations.
- Helps students build an innovation-oriented mindset and contribute responsibly to science, technology, and society.

13th May 2026

2:00 PM TO 4:00 PM

Venue: Mechanical Seminar Hall, Acharya Campus
