

# ACHARYA INSTITUTE OF TECHNOLOGY

Department of Mathematics

## Equation Art: Mathematical Visualization Through Equation

## About the Program

- The session introduces first-year BE students to the practical and dynamic nature of mathematics beyond the classroom
- It bridges the gap between theoretical concepts and real-world applications
- Engages students through interactive activities, problem-solving tasks, and exploratory learning
- Provides hands-on experience with guided exercises and collaborative work
- Demonstrates applications of mathematical concepts in engineering, technology, and research domains
- Enhances analytical thinking for solving real-life problems

**20<sup>th</sup> May 2026**

**2:00 PM TO 5:00 PM**

Venue: Acharya Institute of Technology, Bengaluru
