

ACHARYA INSTITUTE OF TECHNOLOGY

Department of Physics

AI Activity Session On Smart Minds, Smart Machines

About the Program

- The program introduces the fundamentals of Artificial Intelligence and Machine Learning.
- It is designed specifically for second-semester AIML students.
- Includes interactive and hands-on learning activities.
- Uses freely available online AI and ML tools.
- Helps students understand pattern recognition and prediction models.
- Enables students to build simple AI models without coding.
- Encourages experimentation and outcome analysis.
- Explores real-world applications of AI and Machine Learning.

14th May 2026

2:30 AM TO 5:30 PM

Venue: Acharya Campus
