About Program

"Embedded Systems and IT Domains" is an insightful alumni interaction session designed to bridge the gap between academic learning and industry expectations in the Embedded Systems and IT domains. The session highlights the essential technical and professional skills required for industry, including programming, microcontrollers, embedded software, networking, cloud technologies, problem-solving, communication, internships, certifications, and continuous learning. It also provides valuable insights into career opportunities, emerging technologies, industry trends, and workplace expectations, enabling students to understand real-world professional requirements and confidently prepare for successful careers in Embedded Systems and IT.

Objectives of the Program

- Understand the fundamentals and applications of Embedded Systems and IT domains.
- Identify the essential technical and professional skills required in Embedded Systems and IT.
- Explore career opportunities and emerging technologies in Embedded Systems and IT domains.

Resource Person

Mr. Bharath Gopal
Firmware Developer, Dexcom

Mr. Sai Teja Reddy
Product Engineer, Supernet Technologies India pvt Limited

Committee Members

Advisory Committee

- Dr. C K Marigowda, Principal of AIT, Bengaluru
- Dr. Prashant K P, Principal Acharya Polytechnic, Alumni Coordinator, Acharya, Bengaluru
- Dr. Sujatha B M, Alumni Coordinator, AIT, Bengaluru

Convener

- Dr. Rajeswari, Dean & Head of Department of ECE, AIT.

Coordinators

- Dr. Asha C N, Professor, Dept. of ECE, AIT.
- Dr. Jayalaxmi H, Professor, Dept. of ECE, AIT.
- Dr. Nataraju A B, Associate Professor, Dept. of ECE, AIT.
