

FROM CAMPUS TO COMPANY: SKILLS BEYOND ACADEMICS

23rd July 2026 | 11:30 AM to 12:45 PM

Venue: ECE Department, Acharya Campus

About the Program

"From Campus to Company: Skills Beyond Academics" is an insightful alumni interaction session designed to bridge the gap between academic learning and industry expectations. The session highlights the transition from engineering studies to the IT industry, emphasizing the importance of professional skills, internships, resume building, interview preparation, continuous learning, and certifications. It also provides valuable insights into career opportunities in Networking and Cisco Collaboration, while familiarizing students with real-world corporate culture and workplace expectations, enabling them to confidently prepare for successful professional careers.

Objectives of the Program

- To familiarize students with the transition from engineering to the IT industry and workplace culture.
- To create awareness of professional skills, internships, and placement preparation.
- To highlight continuous learning, certifications, and career opportunities in Networking and Cisco Collaboration

Expected Outcomes of the Program

- Students will understand industry expectations and corporate work culture.
- Students will gain knowledge of employability skills, internships, resume building, and interview strategies.
- Students will be motivated to pursue certifications and explore careers in Networking and Cisco Collaboration.

Target Audience: ECE Students
