

A Technical Talk on

An All-in-One AI-Enabled Learning Platform

3rd February, 2026 | 11:30 AM to 12:30 PM

Venue: CSE Seminar Hall, Acharya Campus

About the Program

An All-in-One AI-Enabled Learning Platform technical talk has been arranged for all faculty members to provide insights into how artificial intelligence can enhance teaching, learning, and academic management. The session will highlight key features of AI-powered learning platforms, including personalized learning, automated assessments, content creation, and data-driven decision-making. This talk aims to familiarize faculty with practical AI tools and demonstrate how they can be effectively integrated into classroom instruction and institutional practices to improve overall educational outcomes.

Objectives of the Program

- Enable learners of all backgrounds and skill levels to access high-quality, AI-driven educational resources anytime, anywhere.
- Use AI to adapt content, pace, and learning paths to individual needs, improving engagement, and understanding.
- Support educators, professionals, and learners with intelligent tools that improve instruction, assessment, and continuous skill growth.

Expected Outcomes of the Program

- Learners achieve better comprehension, retention, and performance through personalized and interactive learning experiences.
- Increased participation from diverse users due to inclusive design, flexible learning paths, and AI-supported assistance.
- Users gain relevant, real-world skills and knowledge aligned with academic, professional, and lifelong learning goals.

Target Audience: Faculty of CSE, ISE, AIML, Data Science and ECE departments.
