About Program

The Awareness on Various Scholarship Portal Schemes program aims to inform students about scholarship opportunities and guide them through the process of identifying, applying for, and tracking scholarships. The National Scholarship Portal (NSP) is a one-stop platform for various Central and State Government scholarship schemes. It supports the process from application and verification to sanction and disbursement of scholarship funds.

Objectives of the Program

- Students learn the importance of SSP portal
- Students are exposed to apply the online applications
- Students are exposed to document proofs and e-attestation
