

BIOBLOOM 2025 BLUEPRINT FOR THE FUTURE

29th May 2025 | 10:00 am to 12:00 pm
Mechanical seminar hall, Acharya Campus

About the Program

BioBloom 2025 is a forward-looking initiative designed to catalyze innovation, sustainability, and growth at the intersection of biotechnology, environmental stewardship, and human well-being. As the global community navigates challenges such as climate change, food security, and health resilience, BioBloom 2025 offers a strategic roadmap to harness the power of biological systems for a better future.

Objectives of the Program

- To provide a platform for celebrating academic and creative achievements through the release of the department magazine.
- Fostering innovation and interdisciplinary thinking by showcasing student-led ideas on the extraction and utilization of plant-based products.
- To encourage knowledge sharing, stimulate interest in sustainable bio-resource technologies, and inspire collaborative efforts in the field of plant sciences and engineering applications.

Expected Outcomes of the Program

- Successful release and positive reception of the department magazine, showcasing academic and extracurricular excellence.
- Increased awareness of sustainable techniques for plant product extraction.
- Recognition of innovative student ideas with potential real-world applications.

Target Audience: 4th, 6th and 8th Semester Biotechnology Students

Committee Members

ADVISORY COMMITTEE	+
<ul style="list-style-type: none"> • Dr. C. K. Marigowda, Principal, AIT 	
CONVENER	+
<ul style="list-style-type: none"> • Dr. Shilpa Sivashankar, HOD, Biotechnology, AIT 	
COORDINATORS	+
<ul style="list-style-type: none"> • Dr. Ashalatha, Assistant Professor, Biotechnology, AIT
