About Program

The 5-Day Cyber Security Workshop is designed to provide participants with a practical understanding of cybersecurity concepts and emerging cyber threats. The workshop will cover common attack techniques, vulnerabilities, ethical hacking, and cybersecurity best practices. Participants will gain hands-on exposure to security tools and real-world cybersecurity scenarios. The event aims to build cyber awareness, practical skills, and responsible digital security practices among students.

Objectives of the Program

- To introduce students to the fundamentals of cybersecurity, threats, vulnerabilities, and security practices.
- To provide hands-on exposure to common cyber-attacks and basic cybersecurity tools and techniques.
- To develop students' ability to identify, prevent, and respond to common cybersecurity threats.
