

DATA 2 DECISION CHALLENGE 2026

15th June 2026 | 02:00 PM to 05:00 PM

Venue: MBA Auditorium, Acharya Campus

About the Program

Data 2 Decision Challenge 2026 is an innovative platform that empowers participants to transform data into actionable insights. The program focuses on data analysis, problem-solving, and decision-making skills through real-world challenges. It encourages analytical thinking, creativity, and the practical application of data-driven strategies for business and societal impact.

Objectives of the Program

- To enhance participants' data analysis and decision-making skills through real-world challenges.
- To develop problem-solving abilities by applying data-driven approaches to business scenarios.
- To encourage innovation, critical thinking, and creative use of analytical tools.
- To bridge the gap between theoretical knowledge and practical industry applications.

Expected Outcomes of the Program

- Participants will gain practical experience in analyzing data and generating meaningful insights.
- Participants will improve their decision-making and problem-solving abilities using data-driven approaches.
- Participants will develop skills in applying analytical techniques to real-world business challenges.
- Participants will enhance creativity, innovation, and confidence in presenting data-based solutions
