

FinVision 2025

Redefining Finance in the Age of Data

19th December, 2025 | 10:00 AM onwards
Venue: Mechanical Seminar Hall, Acharya Campus

About the Program

Theme of the Summit FinVision 2025: Redefining Finance in the Age of Data the theme captures the transformation of finance through data analytics, technology, and innovation. It focuses on how financial decisions are no longer driven by intuition alone but are powered by insights, intelligence, and digital transformation. FinVision 2025 aims to inspire students to see finance not just as numbers, but as a dynamic and evolving ecosystem shaped by data and creativity.

Objectives of the Program

- To help students understand how data analytics, AI, and technology are redefining the finance industry.
- To give students the opportunity to hear directly from finance professionals and thought leaders.
- To create awareness about emerging career paths in finance, analytics, and FinTech.
- To encourage critical thinking and analytical problem-solving through interactive discussions.
- To inspire students to connect classroom learning with real-world financial applications and innovations.

Target Audience: MBA Students, AIT

Expected Outcomes of the Program

- Students will gain clarity on modern finance trends — from digital banking to investment analytics.
- Participants will build confidence to engage in conversations about finance, technology, and strategy.
- The summit will foster meaningful student-industry interaction, opening doors to mentorship and networking.
- Students will learn how to apply data-driven insights to make sound financial and business decisions.
- The event will nurture curiosity and motivate students to explore finance as a creative and impactful career field.
