About Program

The alumni success story, "From Mechanical Engineering to Design Leadership," highlights an inspiring career journey of transitioning from an engineering background to a leadership role in design. The session aims to motivate students by showcasing the value of creativity, adaptability, continuous learning, and diverse career opportunities.

Objectives of the Program

- To understand mechanical engineering applications in product design.
- To explore career opportunities and industry expectations in design engineering.
- To develop design thinking, problem-solving, and leadership skills.
