

IDEATHON CHALLENGE

16th September 2026 | 09:00 AM to 06:00 PM

Venue: Acharya Campus

About the Program

The **Ideathon Challenge** is a student innovation competition that encourages participants to identify real-world problems and develop creative, feasible, and impactful solutions. Working individually or in teams, students will brainstorm, validate, and present innovative ideas, fostering creativity, critical thinking, collaboration, and entrepreneurial problem-solving skills.

Objectives of the Program

- To encourage students to identify and address real-world challenges through innovative thinking.
- To foster creativity, teamwork, and design-thinking approaches among participants.
- To provide a platform for students to develop and present impactful ideas.

Expected Outcomes of the Program

- Generation of innovative and practical solutions to societal and industry problems.
- Enhanced problem-solving, teamwork, and presentation skills among students.
- Identification of promising ideas for further development, mentoring, and incubation.

Target Audience: Students, AIT
