

PRARAMBH 2025

Inauguration & Orientation - MBA and MCA

Class of 2025

16th & 17th October, 2025 | 09:30 AM to 05:00 PM

Main Auditorium, Acharya Campus

About the Program

The **Inauguration and Orientation Program for the Class of 2025** marks the formal commencement of the academic journey for the incoming batch. The program is designed to welcome new students into the institution, familiarize them with the vision, mission, and values, and provide an overview of the academic, cultural, and professional opportunities available. It serves as a bridge between school and higher education, ensuring students are well-prepared, motivated, and aligned with institutional expectations.

Objectives of the Program

- To formally welcome and induct students into the institution's academic community.
- To provide an overview of the curriculum, teaching methodologies, and academic support systems.
- To orient students towards institutional policies, code of conduct, and academic integrity.
- To introduce students to faculty, mentors, and peers for building a collaborative learning environment.

Expected Outcomes of the Program

By the end of the Orientation Program, students will be able to:

- Understand the institution's vision, mission, and academic expectations.
- Gain awareness of resources, facilities, and support services available on campus.
- Build a sense of belonging and confidence as part of the Class of 2025.
- Establish initial connections with faculty, peers, and mentors.

Target Audience: MBA and MCA – Class of 2025

About the College

Acharya Institute of Technology is dedicated to excellence in teaching, learning, and research, with a strong focus on developing professionals who make a global impact. The faculty members are deeply engaged in both teaching and research, continually pushing the boundaries of human knowledge. Students are encouraged to pursue academic research and tackle significant challenges, fostering a culture of innovation and inquiry. Established in 2000, Acharya Institute of Technology is located in Bengaluru, popularly known as the "Silicon Valley of India." The institute offers 11 undergraduate programs, 2 postgraduate programs, and 11 research programs, attracting nearly 5,000 students from over 60 countries and various regions of India. Acharya takes pride in its diverse academic environment and its vast network of distinguished alumni worldwide.

About the Department of MBA

The MBA at Acharya Institute of Technology is not just a degree; it's a transformative leadership journey. This prestigious two-year full-time postgraduate program, affiliated with Visvesvaraya Technological University (VTU), is curated to develop forward-thinking, agile, and ethical business professionals equipped to lead in a dynamic global landscape. Rooted in rigorous academics and driven by industry needs, our program empowers students with analytical thinking, innovation, strategic insight, and global business acumen. Through immersive learning experiences, consulting assignments, and entrepreneurial labs, students don't just study management they live it. The program also enables you to focus on specific areas of business, like human resources, consulting, and data analytics. The MBA program is enhanced by Microsoft, offering a specialization in Business Intelligence.

About the Department of MCA

Acharya Institute of Technology offers a two-year Master's degree program that is approved by AICTE and affiliated with VTU. Through the Post Graduate Program, students are provided with challenging opportunities to be part of the IT industry on a global scale.

Students delve into various branches of computer application, encompassing information technology, data science, and data structure. They acquire the skills to develop intricate software solutions and applications. Additionally, our partnership with the AWS enriches their understanding of Cloud Architect challenges, providing an opportunity for certification by the company.

An outstanding learning resource centre and well-equipped labs provide an exemplary learning environment. Moreover, the department has a VTU-recognized research center along with an excellent faculty team to help students to develop a research culture that will enhance the scope of innovation in the industry.
