About Program

The awareness programme “She Matters – Know, Care & Prevent” aims to educate young women about the importance of menstrual health, personal hygiene, and breast cancer awareness. The programme focuses on creating awareness about common women's health issues, identifying early warning signs, and highlighting the importance of timely medical consultation and preventive care. It also provides a supportive platform for students to openly discuss women's health concerns, clarify their doubts, and develop healthy practices for a better future.

Objectives of the Program

- To create awareness about menstrual health and the importance of personal hygiene.
- To educate students about breast cancer, its symptoms, and the importance of early detection.
- To create a supportive environment for discussing women's health issues.
