

ACHARYA'S NR INSTITUTE OF PHYSIOTHERAPY

Demonstration of Neuroheal: PBM LASER THERAPY FOR DIABETIC FOOT

About the Program

- This program aims to introduce faculty and students to Photobiomodulation (PBM) Laser Therapy and its clinical application in diabetic foot neuropathy.
- Demonstrates the NeuroHeal PBM Laser system, including its basic operation and clinical application.
- Enhances clinical knowledge regarding the role of technology-assisted physiotherapy in the management of diabetic foot neuropathy.
- Promotes evidence-based and technology-oriented clinical practice among faculty and students.

21st September 2026

09:00 AM to 01:00 PM

Venue: ANRIPT Seminar Hall, Acharya Campus
