

ACHARYA'S NRV SCHOOL OF ARCHITECTURE

Decoding the Envelope: Technical Essentials of Sustainable Glazing

About the Program

- This program aims to shift the studio discourse from viewing glass solely as a transparent facade material to analysing it as an engineered building envelope as well as an interior element.
- Unpacks complex performance metrics into intuitive, practical concepts that faculty can seamlessly integrate into daily studio crits.
- Aligns glass specification strategies with diverse Indian climatic zones and national sustainability standards.

19th September 2026

09:00 AM to 03:00 PM

Venue: Mechanical Seminar Hall, Acharya Campus
