About the Program

Discover Architecture at Acharya's NRV school of Architecture

The Open House event at Acharya NRV School of Architecture is designed to introduce 9th and 10th grade students, PUC students, and diploma holders to the exciting world of architectural education and design.

This interactive event provides a unique opportunity for young aspirants to explore the creative and academic environment of the school through exhibitions, design showcases, model displays, and Workshops.

It aims to inspire and inform students about architecture as a career path, the structure of the B.Arch. program, and the diverse skills involved—from drawing and design thinking to technology and sustainability.

Guided tours, student interactions, and faculty presentations help visitors gain insights into the learning process and the possibilities within the field. The event fosters early awareness and curiosity, helping students make informed decisions about pursuing architecture in the future.

Objectives of the Program

- **Introduce Architecture as a Creative Career Path:** Provide students with early exposure to the world of architecture through interactive sessions and engaging activities.
- **Create Awareness About Architectural Education:** Showcase the structure and content of the B.Arch. program—spanning drawing, model-making, technology, and sustainability.
- **Help Students Make Informed Career Decisions:** Especially useful for PUC and diploma students preparing for CET, NATA, and COMEDK counseling.
- **Demonstrate Studio Culture and Learning Environment:** Offer first-hand experience of studio life, faculty guidance, and student works that reflect design thinking and problem-solving.
- **Encourage Creativity and Exploration:** Through hands-on workshops and activities, spark imagination, spatial awareness, and artistic skills in young minds.
- **Foster Interaction with Faculty and Alumni:** Create opportunities to engage in open dialogue and real-world insights from experienced mentors and practicing architects.
- **Showcase the Vibrancy of Campus Life:** Let visitors experience the campus vibe through guided tours, installations, art displays, and student-led stalls.

Expected Outcomes of the Program

For Students

- Gain clarity on what architecture is and how it's taught.
- Discover skills needed in the field—from sketching and model-making to creative thinking and presentation.
- Participate in fun, memorable workshops that introduce architectural concepts in a hands-on way.
- Begin visualizing themselves as future architects in a studio environment.

For Parents

- Understand the scope and structure of the B.Arch. program.
- Interact with faculty and alumni to get a clear picture of career opportunities and academic expectations.
- Feel reassured by the safe, well-equipped, and creative campus atmosphere.

Takeaways for All

- A personalized creative journal, mini house model, hand-painted T-shirt, or painted pebble—as a memento of their first architectural experience.
- A newfound curiosity and enthusiasm for the built environment.
- Visual memories of installations, artwork, and student exhibits that leave a lasting impression.

Target Audience: 9th and 10th Grade students, PUC and Diploma Students of Various Schools and college, On Campus students, Alumni of ASA
