ACHARYA POLYTECHNIC

Two-Days Smart Industry Workshop on Industrial Automation and Industrial Internet of Things (IIoT)

The Two-Day Smart Industry Workshop on Industrial Automation and the Industrial Internet of Things (IIoT) is designed to introduce participants to the fundamentals of industrial automation and IIoT. The workshop provides practical insights into industrial control systems, including PLCs, sensors, and actuators, while demonstrating how automation systems integrate with IoT platforms. Through hands-on sessions, participants gain real-time exposure to modern industrial automation and IIoT applications used in smart industries.

12th to 13th February, 2026

09:00 AM to 05:00 PM

Venue Mechanical Block Seminar Hall, Acharya Campus

SPEAKERS

Prof. PM Prabhu

Avinya Networks,
Bengaluru
