

# SMT. NAGARATHNAMMA COLLEGE OF NURSING

## Continuing Nursing Education on Advanced Fracture Management & Techniques

### About the Program

- The Continuing Nursing Education (CNE) program on “Advanced Fracture Management & Techniques” aims to update nurses on current concepts and practices in fracture care.
- It focuses on enhancing clinical skills in fracture assessment, stabilization, and nursing management.
- The program stresses the need to promote evidence-based practices to improve patient safety and recovery outcomes.
