

SMT. NAGARATHNAMMA COLLEGE OF NURSING

Workshop on Reference management System - Mendelay Software

About the Program

- The workshop on Reference Management System – Mendeley Software aims to enhance research, academic writing, and publication skills among nursing faculty and students
- Emphasizes evidence-based research and scholarly writing in improving patient care, education standards, and professional growth
- Introduces Mendeley for systematic organization, management, and citation of nursing literature
- Provides hands-on training in managing research documents and applying standard citation styles
- Highlights ethical research practices, proper source acknowledgment, and plagiarism reduction
