

CAREER VISION

07th July 2025 | 12:00 pm to 01:00 pm

ANR Auditorium, Acharya Campus

About the Program

Career Vision" is a specially designed career development program aimed at empowering students and young professionals to identify, plan, and achieve their professional aspirations. Recognizing that today's competitive world demands not just academic excellence but also clarity of purpose and practical skills, this program offers structured guidance to help participants craft a realistic and inspiring vision for their careers.

Objectives of the Program

- To empower students and young professionals to explore and clarify their career goals.
- To enhance participants' awareness of career opportunities, trends, and the skills required for success.
- To provide practical guidance and tools for effective career planning and professional growth.
- To build participants' confidence in making informed decisions about their future.

Specific Objectives

- Identify their personal strengths, interests, and values through self-assessment activities.
- Outline short-term and long-term career goals aligned with their aspirations and market realities.
- Gain knowledge about current industry trends and emerging career opportunities in various sectors.
- Develop essential skills for career development, including resume writing, interview techniques, and networking strategies.
- Create a personal career roadmap, detailing steps to achieve desired career milestones.
- Build confidence to navigate career challenges and transitions, and embrace lifelong learning.

Expected Outcome of the Program

- Define a clear and realistic vision for their future career.
- Understand the skills and qualifications required in their chosen field.
- Prepare an action plan for academic and professional development.
- Gain the confidence to navigate career transitions and challenges.
